Ali Akbar Sazish

Frontend Engineer with over 3 years of experience specializing in JavaScript, TypeScript, React, and Redux. Proficient in working with backend technologies such as Laravel and SQL. I possess excellent communication and collaboration skills, and I am passionate about continuous learning and adapting to new technologies.

WORK EXPERIENCE

Artam Almas Alborz   *Frontend Developer*

Iran, Tehran (Onsite)   Apr 2022 - PRESENT

- Developing and maintaining web applications using JavaScript, TypeScript, React.js and other related technologies.
- Work closely with back-end developers to integrate front-end and back-end functionalities.
- Collaborate with UI/UX designers to translate design concepts into functional code.

ADRAS (Afghanistan Development and Registry and Addressing Services)   *Web Developer*

Afghanistan, Kabul (Onsite)   Feb 2020 - Aug 2021

- Contributed to the development of a large software system that centralizes administrative operations of governmental civil ORGs across 34 provinces.
- The system focused on employee records and letter management in ministries and their departments.
- Independently created 2 modules from scratch and participated as a team member on 5 additional projects.
- played an essential role as part of a team of 189 IT and web developers in the successful deployment of the software to over 3,000 active users.

Ministry of industry and Commerce   *Database Manager*

Afghanistan, Kabul (Onsite)   Sep 2018 - Jan 2020

- Retrieve information through database queries.
- Work closely with developers to assist in database development tasks.
- Support database backup and recovery processes as needed.
